### ACHIEVEMENTS

#### 💎 Internship Performance:

- Successfully completed the Microsoft Azure AZ-900 internship, gaining practical knowledge of Azure Compute, Azure Storage, and Azure Networking.
- Received commendation for contributions to real-world projects.

#### 💎 Technical Events Participation :

Actively participated in technical events at college in 2021 and 2022, showcasing problem-solving and teamwork skills.

### STRENGTHS

#### ★ Programming Proficiency:

Skilled in Java (Core + Advance + OOP), Flutter, and JavaFX, with a strong understanding of object-oriented programming principles.

#### ★ Quick Learner:

Able to quickly grasp new technologies and concepts, as evidenced by successful participation in diverse technical projects.

### SKILL

Java(Core+Advance)

DSA

JavaFX

Flutter

### PROJECT

#### ChatApp

- Developed a simple GUI program for real-time chat between two users over a network. Developed a simple GUI program for chatting between two people over a network.
- Demonstrated proficiency in multithreading, network programming, and JavaFX concepts.
- Utilized threads to concurrently handle sending and receiving messages, ensuring smooth communication.

#### JavaFX- Based Web Browser

- Created a basic multi-window web browser responsible for opening and maintaining windows.
- Implemented multi-threading, exception handling, and utilized JavaFX for the user interface

#### Music Player with Lyrics Display

- Develop a music player app that not only plays music but also displays synchronized lyrics in real-time
- Implement features such as playlist management and the ability to fetch and display lyrics from an API.

#### E-commerce App

- Create a simple e-commerce app with product listings, a shopping cart, and a checkout system.
- Focus on creating a visually appealing UI and integrating essential e-commerce functionalities.

### EDUCATION

Bachelor of Engineering in Computer Science

2020 - 2024
